## INSTRUCTIONS

1. Create the template for applying Embossing Paste by stamping on cardstock the tree outline from the Nothing Sweeter stamp set in either ink color. Cut away inside the lines of the tree with your Paper Snips. NOTE: You can create the template using Window Sheet, which can be washed and reused. However, you will need to use StazOn ink to stamp the outline and it will stain the photopolymer stamp.
2. Stamp four tree outlines on Crumb Cake cardstock using Soft Suede ink, and cut with tree die (not stitched die).
3. Place the template over your stamped image and using one of the Palette Knives, skim a layer of white Embossing Paste over the template for two (2) of the trees. Set aside to dry.
4. Place about a 1-2 tablespoons of Embossing Paste in a small container and place one drop of Mossy Meadow reinker onto the paste and mix thoroughly. Follow the same procedure as in step 3 for the remaining two (2) trees.
5. Cut a 12" x 6" piece of Cherry Cobbler cardstock and score along the 12" side at 3-3/4", 5-3/4", 9-1/2", and 11-1/2". Turn to the 6" length and score at 2", 4", 5", and 5-1/2".

6. Referring to the diagram above, measure 1" on each of the small rectangles and using the stylus from the Take Your Pick Tool, make an indentations. Again using the stylus and the ruler, draw a diagonal line from the indentation to each corner of the rectangle as pictured above.
7. Fold on all the horizontal and vertical score lines. Do not fold diagonal score lines at this time.

8. Using the diagram as reference, cut on all the solid lines from the edge of the cardstock then cut off all areas indicated in gray.

9. Pinch and fold the diagonal pieces so the point of the end will be folding to the outside of the box.

10. If you will be using the small half circle shape from the Apron Builder Framelits, measure  $7/8$ " from just below where the "milk spout" shape folds and mark it. This is where you will place the straight cutting edge of the die. Cut the opening on both ends. If you are not using the die, you may attach Velcro dots under the flap once the box is constructed.

11. Place Tear & Tape or Fast Fuse where indicated in pink. You need a strong adhesive for this. Bring ends together and attach.

12. At the bottom of the box, place Tear & Tape along both long flaps. Fold in the two short sides. While keeping the box square, fold over each long flap.

13. Place Tear & Tape on the outer side of the  $1/2$ " flap at top of box and fold toward the outside of the box to attach. Repeat for the other side.

14. Cut two pieces of DSP  $1/2$ " x  $3-3/4$ " and attach them to the top tabs of the box.

15. Cut two pieces of DSP  $3-3/4$ " x  $3$ " and attach to the sides of the box.

16. Cut two pieces of Mossy Meadow cardstock  $1/2$ " x  $3-3/4$ " and run through the Big Shot using the stitch scallop die. Attach one to each side of the box.

17. Stamp the sentiment on a  $1/2$ " x  $3$ " piece of Crumb Cake cardstock in Mossy Meadow ink. Create a pennant on one end and cut the other end at a diagonal.

18. On a scrap of Crumb Cake cardstock, use VersaMark ink to stamp the snowflake and heat emboss with white Stampin' Emboss powder. Die cut snowflake using the Framelits.

19. Place an All Is Bright Paper Clip at the top of the box and slide in the sentiment.

20. Attach a red rhinestone to the center of the snowflake. Place a Mini Stampin' Dimensional on the end of the sentiment and attach the snowflake.

21. Place Stampin' Dimensionals on the dry trees and attach a set to each side of the box.
